Prague

Tour Snapshot

Prague is a bucket list city for many a traveller. This fairy tale city is something to behold and this Urban City Break lets you take in all its majesty at an easy pace that is punctuated with great eating and drinking experiences over a couple of days. This is the tour to match with a great airfare into the Czech capital and then leave all the thinking to us as You move through a number of different small group experiences and neighbourhoods, eating and drinking at the places locals love, as You go.

This experience is best paired with at least two nights accommodation (of course You can book more if You wish and if You do so, we strongly recommend these City Break experiences on the first full days you have in the city, as our Urban Adventures local will give you all the information You need to make the most of any further time You have in the city). Whilst it is possible with an early morning arrival on Day 1 and evening departure on Day 2 to do with just a single night accommodation - it isn't recommended for the best experience.

Booking Instructions:

After choosing this experience and moving through the checkout to secure Your place(s), You will then be offered the chance to choose your preferred accommodation. The accommodation map has options from both Airbnb and Booking.com - to cover all tastes and the map is centralised to the area our local team thinks is the best area for someone visiting to get a real feel for the

city. Generally it is a cool neighbourhood with easy access to the city center and experience meeting points, but it is rarely the main part of the city where tourists are most likely to book. You can move the map to where You wish to stay if you have researched other ideas. After choosing the accommodation you wish at the price that is right for You - you may check out again. You are also welcome to book this experience and sort out Your accommodation needs elsewhere online or via Your travel agent if You prefer.

The initial pricing You see here is for the experiences without the accommodation component. Accommodation prices are determined on the type and style of accommodation and the time of travel.
